Current Topics in Pediatric Hematology and Oncology: *A Guide for Pediatric Primary Care Providers*

Saturday, December 2, 2017 / 7:30 a.m. – 1:30 p.m.

Conference Room A, Maria Fareri Children's Hospital, Westchester Medical Center, Valhalla, NY

Overview

Conference attendees will learn how to develop and utilize the Care Compact to achieve patients' goals for health. Participants will review the recommendations for the evaluation of common hematologic and oncologic problems in pediatric patients and discuss current diagnostic and treatment guidelines when patients present with hematology/oncology symptoms. Through lecture and case studies, participants will learn how to apply appropriate management and treatment for each diagnosis and identify patients requiring referral for specialty services. In addition, participation in this program will provide health care professionals with information necessary to assess and

support the mental health and neurocognitive development of patients and families receiving a cancer diagnosis.

Target Audience

Pediatricians; pediatric nurse practitioners; primary care physicians and NP's; Emergency Room MD's, PA's, and NP's; medical residents and fellows; psychiatrists, psychologists, and medical social workers; any other health care professionals interested in the diagnosis and care of children with hematologic and/or oncologic disorders.

CME and CEU credits will be available.
